

# WILDWOOD LOG CABIN

## DOG OWNERS

**Wildwood welcomes responsible dog owners!**

**Please remember that not all people are dog lovers and these people also holiday here in this beautiful log house.**

As dog owners ourselves we are happy for you to bring your dog on holiday to enjoy this wonderful location, however as with most things in life it only takes one thoughtless dog owner to spoil the opportunity for others and lead to a ban on all dogs, which would be a shame as both you and your dog deserve a holiday.

We clear up everytime after our dog and expect you to do the same with your dogs. We provide a shovel (please clean in the soil NOT in the house) for you to undertake the simple task of clearing up your

dogs parcels. It is not fair to leave it lying around for the next guest to tread in or for the children to be exposed to it and the risk of disease that it carries. If you clear up every time your dog produces and have a final check about prior to departure we will be able to avoid complaints from the next guests. If an accident occurs in the house please clean up immediately and disinfect the area. Make sure the parcel goes in the outside bin in a bag.

Please take your dog to the area up on the bank behind the shed and stables and away from the lawned areas as children play here.

Please make sure that NO muddy dogs go into

the house. There is a bucket under the sink in the Boot Room that you can use to wash your dog down. Please then dry your dog off properly so that they do not shake inside the house.

**Thoughtful dog owners are welcome here!**

Please do not leave your dog alone in the property, take them with you when you go out, after all it is THEIR holiday too!

At home your dog may be allowed on the furniture but NOT here!

Please keep your dog off the furniture and beds. Think carefully where your dog will sleep and bring their own bed or crate with you.

**Under no circumstances are dogs allowed on the furniture!**

During the summer months ticks are present in the undergrowth. Make sure your dog is treated with Frontline tick

repellent or similar and always check your dog after a walk.

Please be aware of the spiral staircase. We appreciate that the lounge is upstairs but your dog uses the staircase at your risk.

We hope you and your dog enjoy your holiday and look forward to welcoming responsible owners back next year.

If you don't own a dog we hope that you will not notice that a dog has been here before you.

Regards Wildwood
